

## Ideation Phase Problem Statements

**Template:**  
**As a worker-**

**As an industrialist:**

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
Identify the chemical explosion and fire in industry	A worker	Handle fire explosion issues in my industry	Manually its difficult	Its is hard to find the exact location and move towards it	Scared of loosing my life and co workers life.
To reduce the fire accidents in my industry	An industrialist	To reduce fire accidents in my industry	Its not possible to control large fires	Fire should cause huge loss it should be found at the begining	Bad that huge loss of life of precious workers and drastic loss in property
